<b>U54AG089300 (Gaugler, Samus, Shih)</b> NIA, University of MN The State Alzheimer's Research Support Center (StARS) Objectives: Establish a state policy center on dementia care by engaging with states to conduct SWOT assessments of states' data systems, hold state roundtables to identify challenges with linking data, and grant pilot funds to states to integrate data across multiple health systems. This infrastructure will create a centralized data repository on states' dementia care programs that tracks outcomes and shares dementia care program best practices within and across states.	2024-2029 \$17,359,627
<b>90CGPS00002-01-00 (Shih)</b> National Alliance for Caregiving/Administration for Community Living Creating and Advancing Caregiving Research and Evidence Network Objectives: Emory is a sub to NAC for this ACL cooperative agreement to develop common research priorities, consistent measures, and scale evidence-based interventions for programs funded by the Older Americans Act, including state units on aging; area agencies on aging; local aging and family caregiver support providers; kinship, grandparent and grandfamily services providers; and tribes and tribal entities.	2023-2027 \$1,374,406
<b>U24AG077110 (Shih)</b> NIA Research Network for Alzheimer's Disease Home and Community Based Services Objectives: Build the data infrastructure to develop and harmonize measures to ensure equitable access to HCBS. The Network will build and diversify the research bench by engaging and supporting underrepresented researchers, coordinating activities with other networks, and training researchers to develop and disseminate policy-relevant research.	2022-2027 \$2,323,702
<b>T32AG000244-26-30 (Shih)</b> NIA Postdoctoral Fellowship in the Study of Aging: Ruth L. Kirschstein National Research Service Award (NRSA) Institutional Research Training Grant. Objectives: This grant extends another 5 years to a training program that has been at RAND for 27 years to help young scholars (1) study aging-related issues in an interdisciplinary environment; (2) enhance analytical skills; (3) learn how to more effectively present research results; and (4) develop an agenda for research after leaving the postdoctoral program.	2021-2026 \$798,475
<b>R01AG079967 (Gracner/Mulhern)</b> NIA Long-term Effects of Educational Investments on Cognitive Health Role: Co-Investigator Objectives: Estimate causal effects of educational content and quality on the cognitive function of older adults by leveraging the quasi-experimental variation in K-12 and college educational experiences due to the National Defense Education Act (NDEA) which focused on improve STEM and foreign-language education and provision of college loans for low-income students.	2024-2029 \$4,211,859
<b>R01AG077935 (Madrigano)</b> NIA Green Space and Cognitive Health: Role of Structural Racism in Environmental and Health Disparities Role: PI on sub-grant from Johns Hopkins University	2022-2027 \$4,467,147

Objectives: Assess associations between changes in green space and cognitive function, cognitive decline, and dementia, over a 20-year period and the role of structural racism as measured by historical redlining.

NIA \$3,407,798

Health, Wellbeing, and the Social Networks of Family Caregivers of People with Alzheimer's Disease  
Role: Co-Investigator

Objectives: Establish a longitudinal online panel of dementia family caregivers to identify the structure and characteristics of the joint support networks of older adults and a family caregiver, and changes in networks over time.

**R01AG066194-02S1 (Friedman)** 2020-2024  
NIA Supplement \$313,825

COVID-19 Impacts on the Social Networks of Family Caregivers of People with Alzheimer's Disease  
Role: Co-Investigator

Objectives: Examine how COVID-19 has impacted dementia family caregiver roles and duties.

**RF1AG069114-01A1 (Perkins)** 2021-2024  
NIA \$2,224,871

Role: Co-Investigator

Investigating Informal Caregivers' Involvement in End-of-Life Care among Assisted Living Residents with Advanced Dementia and its Influence on Resident and Caregiver Outcomes

Objectives: Assess family caregiver involvement in end-of-life care, changes over time, multilevel influences on relationships, caregiver outcomes, and residents' quality of life.

**R01AG069114-02 (Perkins)** 2024-2026  
NIA \$1,561,899

Role: Co-Investigator

Investigating Informal Caregivers' Involvement in End-of-Life Care among Assisted Living Residents with Advanced Dementia and its Influence on Resident and Caregiver Outcomes.

Objectives: Assess family caregiver involvement in end-of-life care, changes over time, multilevel influences on relationships, caregiver outcomes, and resident's quality of life.

**EACB-26583 (Palimaru and Shih)** 2023-2024  
Rutgers University/PCORI \$85,000

Developing Collaborative Capacity for Healthy Aging PCOR-CER with Villages

Objectives: This Eugene Washington Engagement Award will collect qualitative data with Executive Directors of villages to understand village members' priorities to engage in patient-centered comparative effectiveness research and offer education on how members can become more engaged in how health/health care research is conducted.

**CDC P008703961 (Rollison and Shih)** 2020-2025
