

Eric J. Nehl

Office Address: Department of Behavioral Sciences and Health Education
Rollins School of Public Health
Emory University
1518 Clifton Road, NE, Room 522
Atlanta, GA 30322

Office Phone: (404) 727-9445

Email: Enehl@emory.edu

ACADEMIC BACKGROUND

- Ph.D. Major: Health Behavior Minor: Educational Inquiry Methodology
Departments of Applied Health Science and Counseling & Educational Psychology, Indiana University, Bloomington, IN March, 2009
Dissertation: *Exploring Ethnic Specific Physical Activity Correlates among University Students Using the Social Cognitive Theory*
- M.S. Major: Community Health Education
Department of Physiology & Health Science,
Ball State University, Muncie, IN May, 2001
Thesis: *A Comparison of Selected Demographics of Indiana State Legislators and Their Voting Records on Tobacco Issues*
- B.S. Major: Health Education Minor: Computer Applications
Departments of Physiology & Health Science and Computer Science,
Ball State University, Muncie, IN July, 1998

PROFESSIONAL EXPERIENCE

2010-Present Assistant Research Professor: Emory University Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Atlanta, GA

2012-2013 Visiting Faculty: King Saud University Department of Family and Community Medicine, College of Medicine, Riyadh, Kingdom of Saudi Arabia

2009-2010 Senior Study Director: Emory University Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Atlanta, GA

2006-2009 Data Analyst: Pool Cool Program, Emory University Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Atlanta, GA

2003-2006 Associate Instructor: Indiana University Department of Applied Health Science, Bloomington, IN

1999-2003 Research Analyst: American Cancer Society Behavioral Research Center, Atlanta, GA

1999 Internship: American Cancer Society National Home Office, Department of Cancer Control, Atlanta, GA

1998-1999 Graduate Assistant: Department of Physiology & Health Science, Ball State University, Muncie, IN

1998 Health Education Internship: Ball State University Health Education Division, Ball State University, Muncie, IN

TEACHING EXPERIENCE

BSHE 532 Quantitative Data Analysis (2014: 1 section: 30 MPH students) Emory University Department of Behavioral Science and Health Education, Atlanta, GA

BSHE 569 Grant Proposal Writing (2013-2014: 2 sections: 25 MPH students) Emory University Department of Behavioral Science and Health Education, Atlanta, GA

BSHE 520 Theory in Behavioral Sciences and Health Education (2010-2014: 6 sections: 25 MPH students each section) Emory University Department of Behavioral Science and Health Education, Atlanta, GA

BSHE 500 Behavioral Sciences and Social Sciences in Public Health (2012-2014: 8 sections: 40 MPH students each section) Emory University Department of Behavioral Science and Health Education, Atlanta, GA

Social and Behavioral Science Aspects of Public Health (2012-2013: 1 section: 25 MPH students) King Saud University Department of Family and Community Medicine, College of Medicine, Riyadh, Kingdom of Saudi Arabia

Associate Instructor

H263 Personal Health (8 sections 2003-2005: 100 students average) Indiana University Department of Applied Health Science, Bloomington, IN

H320 The Nature of Cancer (2005: 90 students) Indiana University Department of Applied Health Science, Bloomington, IN

C403 Techniques of Public Health Education (2005: 20 students) Indiana University Department of Applied Health Science, Bloomington, IN

Graduate Assistant

HSC 393 Health Promotion Programming (1999: 10 students) Department of Physiology & Health Science, Ball State University, Muncie, IN

HSC 394 Health Communication (1999: 40 students), Department of Physiology & Health Science, Ball State University, Muncie, IN

HSC 387 Quantitative Methods and Epidemiology (1998: 40 students) Department of Physiology & Health Science, Ball State University, Muncie, IN

ADVISING RESPONSIBILITIES

Mikulich, M. (2014). Doctoral Dissertation: *Determinants of infant feeding practice among HIV-positive mothers in Ethiopia*. School of Nursing, Emory University, Atlanta, GA.

Troke, C. (2015). Master's Thesis: *Alcohol outlets and concurrent alcohol and crack use among African American adults in Atlanta, GA*. Department of Epidemiology, Rollins School of Public Health, Emory University, Atlanta, GA

Harnisch, J. (2014). Master's Thesis: *A syndemic analysis of depression among a sample of men who have sex with men in Shanghai, China*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Gilliard, D. (2014). Master's Thesis: *A qualitative explorative study of dating experiences and sex behaviors of young Black MSM who use dating phone apps using the Integrated Behavior Model*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Gloor, S. (2014). Master's Thesis: *Obesity and agency: Differences by gender in determinants of adolescent overweight and obesity in Bijapur, India*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Bannon, K. (2013). Master's Thesis: *An exploration of sun-protective behaviors in undergraduate student athletes*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Coleman, R. (2013). Master's Thesis: *Religious socialization: It's impact on the sexual behavioral development of Black men who have sex with men (MSM) in emerging adulthood*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Enofe, N. (2013). Master's Thesis: *Alternative tobacco product use among college students: Who is at highest risk*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Johnson, M. (2013). Master's Thesis: *Associations between parent and teenage attitudes of blood donation and intentions to donate blood*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Suragh, T.A. (2013). Master's Thesis: *Using market research to characterize college students and substance use behaviors*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Lin, L. (2012). Master's Thesis: *African diaspora in Guangzhou, Guangdong Province, China, A qualitative study on health and discrimination related issues*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Yu, F. (2012). Master's Thesis: *Smoking syndemics among a sample of MSM in Shanghai, China*. Department of Epidemiology, Rollins School of Public Health, Emory University, Atlanta, GA.

Tran, A. (2012). Master's Thesis: *Problem drinking behaviors: Differential effects of stress and type of school on black versus white college students*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

Pinsker, E. (2012). Master's Thesis: *Intentions to quit smoking among daily smokers and native and converted nondaily smokers in the college student population*. Department of Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA.

HONORS AND AWARDS

2014 Bill Bock Outstanding Alumnus Award. Ball State University Department of Physiology and Health Science

2013-2014 Affiliate Scholar. UCLA HIV/AIDS, Substance Abuse and Trauma Training Program (HA-STTP); National Institute on Drug Abuse.

2011 Emory Center for AIDS Research (CFAR) micro grant

2010-2011 Nominated for Emory Rollins School of Public Health Professor of the Year

2010 Emory Center for AIDS Research (CFAR) poster grant

2009-2013 American Psychological Association's Behavioral and Social Science Volunteers for Socioeconomic Status Cancer Related Disparities Program

2006 Will Rogers Institute / American Association of Health Educators doctoral fellowship

2004-2006 Department of Health, Physical Education, and Recreation doctoral fellowship

2005 Department of Health, Physical Education, and Recreation travel grant

2004 American Cancer Society 5-year service award

2000 American Cancer Society Peak award

1999 Charles R. Carroll Health Education Scholarship, Ball State University Department of Physiology and Health Science

1994 – 1998 Division 1 Ball State Volleyball two-year letterwinner, Two NCAA Final Four appearances, Conference champions twice

CURRENT RESEARCH SUPPORT

R01AI106715-01

Wong (PI)

2013 to 2016

NIAID/NIH

A Molecular-Social Network Investigation of HIV-HCV Co-infection in Chinese MSM
By integrating behavioral network analysis and HCV and HIV phylogenetic analysis this study will establish the differential and joint contributions of sexual risks and injection drug use to HCV transmission among HIV-infected Chinese men who have sex with men and their IDU and sexual partners. The study also will describe and examine behavioral and social network characteristics associated with sexual and/or drug risk determinants of HCV.

Role: Co-Investigator

RO1DA025607

Sterk & Elifson (PI) 09/30/2007 to 06/30/2014 (nce)

NIDA/NIH

People and Places: Neighborhood Effects on Drug Use Among African American Adults
The main purposes of this project are to investigate the association between neighborhood context, individual characteristics and neighborhood perceptions with drug use; to examine the association between neighborhood context, individual characteristics, including situational use-related attributes, and neighborhood perceptions with the frequency of drug use; and (3) to identify the spatial patterns or “hot spots” of drug use and to investigate neighborhood and individual-level characteristics, such as gender and age, associated with these spatial patterns. Findings from this study will yield baseline data for prevention and intervention efforts that consider structural risk and protective factors over and beyond those at the individual level.

Role: Data Analyst

Sterk & Elifson (PI) 09/30/2007 to 06/30/2014 (nce)

NIDA/NIH

Be Healthy: Neighborhood Effects on HIV Risk-Taking

The aims of this longitudinal study are: (1) To investigate the association between neighborhood context, individual characteristics, and neighborhood perceptions with HIV sexual risk-taking and the link between this risk-taking and HIV status; (2) To examine the association between neighborhood context, individual characteristics, and neighborhood perceptions with injection drug use (IDU) related HIV risk-taking and this risk-taking and HIV status; (3) To identify the spatial patterns or “hot spots” of HIV risk-taking and to investigate neighborhood and individual-level characteristics, such as alcohol and drug use and perceived HIV risk, associated with these spatial patterns. The findings will contribute to multi-level, interdisciplinary interventions including researchers, urban planners and policy makers.

Role: Data Analyst

NIDA/NIH

Network and Spatial Approaches for HIV Prevention Targeting High-Risk Chinese Men

This training grant is designed to study network and spatial factors that put Chinese MSM at high risk for alcohol use and HIV/STIs using a behavioral surveillance of 300 Chinese MSM (including 150 who engage in transactional sex).

Role: Principal Investigator

COMPLETED RESEARCH SUPPORT

R01HD56956 Wong (PI) 09/30/2007 to 06/30/2014 (nce)

NICHD/NIH

Risks for HIV/STIs and Their Psychological Correlates among Chinese MSM

The study is a sero- and behavioral surveillance of 1,200 Chinese MSM (including 600 who engage in transactional sex). In addition, the study examines three recruitment methodologies, especially on overlapping participation among research subjects.

Role: Co-Investigator

P30AI050409 Wong (PI) 07/15/2012 to 09/01/2012

Emory CFAR Micro Grant

Sex-C: Exploring the Sexual Transmission of Hepatitis C Pilot Study

This study assesses the ability of ACASI interviews among patients enrolled in hepatitis C clinics in Atlanta, GA.

Role: Co-Investigator
