Academic Positions

Professor, Department of Behavioral Sciences and Health Education, School of Public Health, Emory University, 2015-present
Jointly appointed, Department of Epidemiology
Director of Graduate Studies, Department of Behavioral Sciences and Health Education, School of Public Health, Emory University, 2016-present
Professor, Department of Health Outcomes and Policy, College of Medicine, University of Florida, July 2010-2015
Associate Director, Institute for Child Health Policy, University of Florida, 2007-2015
Graduate Faculty, Health Outcomes and Policy, College of Medicine, University of Florida, 2012-2015
Graduate Faculty, Epidemiology, College of Medicine and College of Public Health and Health Professions, University of Florida, 2010-2015
Collaborator Member, Health Outcomes and Behavior, Moffitt Cancer Center, 2012-2014
Associate Professor, Department of Epidemiology & Health Policy Research, College of Medicine, University of Florida, October 2004-June 2010
Graduate Faculty, Epidemiology & Health Policy Research, College of Medicine, University of Florida, 2004-2010
Adjunct Associate Professor, Division of Epidemiology, School of Public Health, University of Minnesota, October 2004-February 2008
Associate Professor, Division of Epidemiology, School of Public Health, University of Minnesota, July-September 2004
Assistant Professor, Division of Epidemiology, School of Public Health, University of Minnesota, 1999-2004
Senior Member, Graduate Faculty, Division of Epidemiology, School of Public Health, University of Minnesota, 2003-2008
Member, Graduate Faculty, Division of Epidemiology, School of Public Health, University of Minnesota, 1999-2003
Research Associate, Division of Epidemiology, School of Public Health, University of Minnesota, 1995-1999
Postdoctoral Fellow, Prevention Research Center, University of Illinois at Chicago, 1994-1995
Predoctoral Fellow, National Heart, Lung and Blood Institute Training Grant, University of Minnesota, 1993

Current Research Grants

Principal Investigator (MPI), “Family Economic Security Policy: Effects on Child Health Disparities,” funded by the National Institutes of Health, National Institute on Minority Health and Health Disparities, 2015-2019, \$1.6M. The project is a 3-phase study, including a strong empirical evaluation of the effects of multiple state-level family economic security policies on infant and childhood mortality disparities by income and race/ethnicity.

Principal Investigator (MPI), “Engaging Georgia’s Faith Communities for Promoting Reproductive Health,” as part of The Center for Reproductive Health Research in the SouthEast (RISE), funded by Anonymous Foundation, 2017-2020, \$807,491. RISE is an interdisciplinary center of scholarship dedicated to building an evidence base and implementing solutions for the social determinants of family planning and reproductive health in the Southeastern United States.

Co-Investigator, “Kentucky Communities and Researchers Engaging to Halt the Opioid Epidemic” (Care2Hope), funded by the National Institutes for Health, National Institute on Drug Abuse (NIDA) in partnership with the Appalachian Regional Commission (ARC), the Centers for Disease Control and Prevention (CDC), and the Substance Abuse and Mental Health Services Administration (SAMHSA), 2017-2019, \$1.16M. The goal of the project is to develop an academic-community

partnership to develop and implement comprehensive approaches to prevent and treat the consequences of opioid injection—including overdoses, hepatitis C and HIV.

Past Grants

Co-Director, Policy and Dissemination, Translation Core, “The Center for Reproductive Health Research in the SouthEast (RISE) Planning Grant,” funded by Anonymous Foundation, 2016-2017, \$380,602. We propose an interdisciplinary center of scholarship dedicated to building an evidence base and implementing solutions for the social determinants of family planning and reproductive health in the Southeastern United States. The Center will conduct research, education/training, and policy-relevant community engagement and practice to address multiple levels of influence as they directly and/or indirectly impact women’s reproductive health and family planning outcomes.

Principal Investigator, “A Prevention Trial in the Cherokee Nation: Interactive Effects of Environment & SBIRT,” funded by National Institutes of Health, National Institute on Alcohol Abuse and Alcoholism and National Institute on Drug Abuse, 2011-2017, \$4,749,020. The project is a partnership between prevention scientists and the Cherokee Nation Behavioral Health Services to create, implement and evaluate a new, integrated community-level intervention designed to prevent underage drinking and associated negative consequences among Native American and other youth living in rural high-risk communities.

Primary Mentor, Postdoctoral Fellowship for Brady Garrett, Ph.D., citizen of the Cherokee Nation, Research Supplements to Promote Diversity in Health-Related Research through Prevention Trial in the Cherokee Nation, NIAAA, 2014-2017, \$108,706.

Principal Investigator, “Heavy Alcohol Use among Native American Young Women: Patterns, Risk Factors and Consequences,” Administrative Supplements for Research on Sex/Gender Differences, funded by NIH Office of Research on Women's Health through Prevention Trial in the Cherokee Nation, NIAAA, 2014-2015, \$99,809.

Co-Principal Investigator, “Evaluation of Policies to Improve Social Determinants of Health & Reduce Child Health Disparities,” funded by the Robert Wood Johnson Foundation, 2012-2015, \$300,000.

Primary Mentor for Dr. Stephanie Staras’ K01 award, “HIV Risk Among Racially-Diverse, Minority Youth: Alcohol and Partner Selection,” funded by National Institutes of Health, 2010-2015, \$774,899.

Co-Investigator, “University of Florida Clinical and Translational Science Award,” funded by the National Institutes of Health, 2009-2015, \$25,748,170. The mission of the CTSI is to facilitate the movement of discoveries to real-world practice and to help healthcare professions guide researchers toward practical applications. Dr. Komro serves on the Implementation Science Operations Committee.

Co-Investigator, Teens Tracking for Health: A school-based feasibility project to prevent and treat adolescent obesity, funded by the Florida Blue Foundation, 2014-2015, \$100,000 (PI, Raquel Hernandez, M.D., M.P.H., All Children’s Hospital/Johns Hopkins Medicine).

Principal Investigator, “Creating the Scientific Infrastructure for the Promise Neighborhood Initiative,” funded by National Institutes of Health, National Institute on Drug Abuse, prime to Oregon Research Institute (Biglan, PI, \$4,037,612), 2009-2012, \$384,898 subcontract. The goal of this project is create the infrastructure to begin research on comprehensive preventive interventions in the nation’s highest poverty neighborhoods. We will build a network of scientists, policymakers and community leaders; define measures of wellbeing and risk and protective factors; and develop research on the impact of evidence-based policies, programs and practices when implemented in high-poverty communities.

Co-Primary Mentor for Dr. Mildred Maldonado Molina’s K01 award, “Alcohol contextual influences: Effects on health disparities and mortality,” funded by National Institutes of Health, National Institute on Alcohol Abuse and Alcoholism, 2009-2012, \$617,004.

Principal Investigator, “Etiology of alcohol use and consequences among multi-ethnic urban youth,” funded by the National Institutes of Health, National Institute on Alcohol Abuse and Alcoholism and National Center on Minority Health and Health Disparities, 2008-2012, \$1,828,097. The goal of this study is to examine trajectories and multiple levels of influences on alcohol use among urban low-income adolescents, explicitly comparing patterns of effects across ethnic and gender subgroups.

- Principal Investigator*, Supplement to “Etiology of Alcohol Use and Consequences Among Multi-ethnic Urban Youth,” funded by the National Institutes of Health, National Institute on Alcohol Abuse and Alcoholism, 2009, \$87,900.
- Co- Investigator*, “Identifying and Monitoring Needs and Progress Among Children and Adolescents in High-risk Communities: A Pilot Study,” funded by University of Florida Clinical and Translational Science Institute Community Engagement and Research Program, 2011-2012, \$37,529.
- Co-Principal Investigator*, “Taxing for health: A meta-analysis of alcohol tax effects from 1960 to 2007,” funded by the Robert Wood Johnson Foundation, 2007-2009, \$199,866. The goal of this study is to conduct a meta-analysis of the entire literature from 1960 to present of the effects of beverage alcohol taxes/prices on drinking and morbidity and mortality outcomes.
- Co-Investigator*, “State alcohol tax policy: Effects on risky behaviors and health outcomes,” funded by the Robert Wood Johnson Foundation, 2007-2009, \$397,293. The goal of this study is to estimate the effects of state beer and spirits tax changes on numerous outcomes of current concern, using a quasi-experimental design and time-series methods.
- Principal Investigator*, “An Adaptation of Project Northland for Urban Youth,” funded by the National Institute on Alcohol Abuse and Alcoholism, 2001-2007, \$11,441,776. The goal of this research project is to adapt, enhance, implement, and evaluate Project Northland in racially diverse and economically disadvantaged urban neighborhoods of Chicago. Project Northland is a multi-component intervention, including three years of behavioral curricula, family interventions, youth-planned extracurricular activities, and community organizing. The evaluation design is a randomized community trial including 60 Chicago public schools and surrounding neighborhoods.
- Principal Investigator*, “Parent Interventions for Adolescent High-Risk Health Behaviors: A Meta-analysis of the Literature from 1973 to Present,” funded by the Institute for Child Health Policy Graduate Assistantship Program, 2007-2008, \$7,050. The proposed study seeks to identify, review and code all of the published literature on the effects of randomized controlled trials of parent interventions on numerous adolescent high-risk health behaviors.
- Co-Principal Investigator*, “Preventive Interventions for Reducing Health Disparities and Adolescent High-Risk Health Behaviors: A Meta-analysis of the Literature,” funded by the Institute for Child Health Policy Pilot Study Program, 2007-2008, \$60,000. The study will identify, review and code published literature on the effects of quasi-experimental and experimental trials of preventive interventions on numerous adolescent high-risk health behaviors, such as sexual behavior, delinquency, and drug use.
- Co-Investigator*, “Reducing Underage Drinking through Coalitions Evaluations,” funded by the Robert Wood Johnson Foundation, 2004-2008, \$595,785. This funding will complete the final two years of evaluating the full eight-year RUDC Initiative, continuing collection and analysis of all key intermediate and ultimate outcome data components and discontinuing process and public opinion survey data collection.
- Co-Investigator*, “Effects of Statutory Changes in DUI Penalties: An Evaluation of Policy Changes from 1976-2000 across the 50 States,” funded by the Robert Wood Johnson Foundation, 2004-2007, \$284,252. The goal of this study is to address this central research question: What are the effects of changes between 1976 and 2000 in statutorily defined penalties for driving after drinking on alcohol-related car crash rates in the 50 U.S. states?
- Co-Investigator*, “Commonalities, divergences, and synergism in legal issues across alcohol, tobacco and firearms,” funded by the Robert Wood Johnson Foundation, 2004-2007, \$122,626. The goal of this study is to create an opportunity for wide-ranging and open discussions of the issues regarding legal liability across alcohol, tobacco and firearms, and to facilitate the transfer of lessons from those working on one product to those working on the others.
- Consultant*, “Community Health Development: An Intervention Study Among Young People in Kahe, Tanzania,” funded by the Norwegian government, 2002-2006. The goal of this project is to design and evaluate a comprehensive health development project promoting reproductive health among young people in Tanzania.
- Principal Investigator*, “Community-level Assessment of Outdoor Alcohol Advertisements,” funded by the NIH Office of Behavioral and Social Sciences Research, 2002-2004, \$100,000. The goal of this project is to determine the prevalence, type, and proximity to public schools of all outdoor alcohol advertising in a diversity of Chicago neighborhoods and to examine the association between these advertisements and students’ alcohol-related attitudes, norms, and behaviors.
- Co-Investigator*, “Mobilizing Youth for Action Against Tobacco in India,” funded by the Fogarty Center, National Institutes of Health, 2002-2004. \$1,707,422. The goal of this project is to prevent the onset and reduce the prevalence of tobacco use

among adolescents in four cities in India and to increase the capacity of Indian researchers to conduct community trials research projects.

Co-Principal Investigator, “A Community-based Evaluation of D.A.R.E. and D.A.R.E. PLUS,” funded by the National Institute on Drug Abuse, 1998-2003, \$4,000,000. The Minnesota D.A.R.E. PLUS Project is a community trial with the goal of designing, implementing, and evaluating school, family, and neighborhood strategies to reduce drug use and violence among a cohort of young adolescents. Responsibilities include sharing the duty of scientific management of the project with the Principal Investigator, leading the evaluation and data analysis activities, and participating in the intervention development.

Principal Investigator, “Student Leadership and Participation in School and Community ATOD and Violence Prevention Activities,” funded by the U.S. Department of Health and Human Services, Center for Substance Abuse Prevention through the Minnesota Department of Children, Families, and Learning, 2000-2003, \$444,232. This grant supplements the Minnesota D.A.R.E. Plus Project and will develop, implement, and evaluate a student-planned after school program.

Co-Investigator, “Partners for Prevention II: Youth Alcohol Use,” funded by the National Institute on Alcohol Abuse and Alcoholism, 2000-2003, \$190,672. Randomized trial in Moscow to adapt, implement, and evaluate the Amazing Alternatives! programs from Project Northland.

Principal Investigator, “Implementation and Evaluation of a Peer-Planned Summer Extracurricular Program for the Prevention of Drug Use and Violence,” funded by the Minnesota Medical Foundation, 2000-2001, \$25,000. This grant supplements the Minnesota D.A.R.E. Plus Project and will implement and evaluate a summer program to increase protective factors and decrease risk factors for drug use and violence.

Faculty, “Leadership Education in Maternal and Child Public Health,” funded by the Maternal and Child Health Bureau, NIH, 2000-2005, \$1,750,000. The maternal and child health program will prepare an interdisciplinary group of graduate students to be competent leaders, scholars, and community partners for careers as public health practitioners, teachers, advocates, and researchers who will improve the health and wellbeing of women, children, adolescents, and families.

Co-Investigator, “The Tobacco Free Future Project,” funded by the National Cancer Institute, 1997-2002, \$2,000,000. The Tobacco Free Future Project is a community trial to develop, implement, and evaluate strategies to reduce social availability of tobacco to youth. Responsibilities include the development of a parent survey and consulting on statistical analyses.

Co-Investigator, Supplement to “Working with Parents and Schools to Prevent Alcohol Use During Early Adolescence: Generalizing Findings from the U.S. to Russia,” funded by the U.S. Civilian Research and Development Foundation for the Independent States of the Former Soviet Union, 1999-2000, \$25,000. Data were collected from a cohort of 2,400 Moscow sixth graders to determine the effectiveness of the Slick Tracy Program from Project Northland.

Co-Investigator, “Working with Parents and Schools to Prevent Alcohol Use During Early Adolescence: Generalizing Findings from the U.S. to Russia,” funded by the U.S. Civilian Research and Development Foundation for the Independent States of the Former Soviet Union (CRDF), 1997-1999, \$40,086. Randomized trial in Moscow to adapt, implement and evaluate the Slick Tracy Program from Project Northland.

Evaluation Director, Project Northland II and III, two integrated grants funded by the National Institute on Alcohol Abuse and Alcoholism, 1995-1999, \$4,000,000. Project Northland is a community trial to develop, implement, and evaluate strategies to reduce alcohol use and alcohol-related problems among a cohort of high school students in northeastern Minnesota. Responsibilities include the development and management of qualitative and quantitative evaluation methods of a multiple component intervention, and the design and management of data analyses and manuscript preparation. Also participate in intervention development.

Total Grants	(N=34)	\$48 Million (excluding UF’s CTSA)
Total as PI/Co-PI	(N=14)	\$24.8 Million

Doctoral Advising

Phenese Dunlap, Behavioral Sciences and Health Education PhD Program, Emory University (Advisor, 2017-present).

Rachael Spencer, Behavioral Sciences and Health Education PhD Program, Emory University (Advisor, 2016-present).

Melvin Livingston, Epidemiology PhD Program, University of Florida (Advisor, 2010-2013). Dissertation: *Assessment of Adolescent Alcohol Use: Estimating and Adjusting for Measurement Bias*. Current position. Assistant Professor, Department of Biostatistics and Epidemiology, University of North Texas.

Jennifer Reingle, Epidemiology PhD Program and ICHP Pre-doctoral Fellow, University of Florida (Co-Advisor, 2008-2011).

Dissertation: *Group fighting and violence among early adolescents: Explaining gender and ethnic disparities in violent delinquency*. Current position: Assistant Professor, Division of Epidemiology, Human Genetics, and Environmental Sciences, University of Texas School of Public Health.

Graham Moore, Cardiff University (External Examiner, 2010). Dissertation: *Developing a mixed methods framework for process evaluations of complex interventions: The case of the National Exercise Referral Scheme policy trial in Wales*. Research Fellow, Cardiff School of Social Sciences, Cardiff University.

Amy L. Tobler, Department of Health Education and Behavior, College of Health and Human Performance, University of Florida (Co-Advisor, 2006-2009). Dissertation: *Neighborhood context and alcohol use among urban, low-income, multi-ethnic, young adolescents*. Current position: Time off for family.

Keryn Pasch, Division of Epidemiology, University of Minnesota (Committee Member, 2003-2007). Dissertation: *Parenting factors and early adolescent alcohol use in urban, ethnically diverse youth*. Current position: Associate Professor, Department of Health Education, University of Texas.

Kari C. Kugler, Division of Epidemiology, University of Minnesota (Advisor, 2002-2006). Dissertation: *Etiology of sexual development among adolescents in northern Tanzania*. Immediate post PhD: visiting scholar, University of Oslo. Current position: Research Associate, The Methodology Center, The Pennsylvania State University.

Pamela J. Johnson, Division of Epidemiology, University of Minnesota (Co-Advisor, 1999-2004). Dissertation: *The effect of neighborhood poverty on American Indian infant death*. Current position: Associate Professor, Integrative Health & Wellbeing Research, Center for Spirituality & Healing, University of Minnesota Academic Health Center.

Melissa H. Stigler, Division of Epidemiology, University of Minnesota (Co-Advisor, 1999-2002). Dissertation: *Teasing apart a multi-component approach to adolescent alcohol prevention: What worked in Project Northland*. Current position: Associate Professor, Division of Health Promotion and Behavioral Sciences, School of Public Health, University of Texas.
