16. Research Focus:

Passionate about injury and violence prevention through hospital-based intervention programs for underserved populations. My research has focused on physical and psychological aspects of impairment and recovery following occurrences of traumatic injury. I have used mixed methods to help create a better understanding of the incidence, prevalence, and impact of retained bullets.

17. Grant Support:

a. Previous Support:

NIH T32 Trauma Training Grant, UCSF, \$93,012, 2011 – 2013

Penn Injury Science Center and the Centers for Disease Control #R49 CE002474, \$13,847, 2016
