FORMAL EDUCATION

2007	Ph.D.	Clinical Psychology, University of Georgia
2006	Internship	University of Maryland, School of Medicine/Veterans Affairs Maryland Healthcare System, APA-accredited
2002	M.A.	Psychology, University of North Carolina at Wilmington
2000	B.S., with honors	Psychology and Sociology, College of Charleston

LICENSURE/CERTIFICATIONS

Licensed Clinical Psychologist, Georgia State Board of Examiners of Psychologists, GA License #: PSY003395, 08/2010-present

Contracting Officer Representative, 11/2011-present

SELECTED PROFESSIONAL EXPERIENCE

02/2016-present **Team Lead, Prescription Drug Overdose Epidemiology and Surveillance Team, Division of Unintentional Injury Prevention (DUIP), Centers for Disease Control and Prevention, Atlanta, GA**

- Lead a team of 8 scientists on CDC's opioid overdose epidemiology and surveillance team that includes health scientists, epidemiologists, and a medical officer
- Prioritize key epidemiology and surveillance activities on prescription drug, heroin, and fentanyl abuse and overdose
- Regular briefings with Division Director, Center Director, and CDC Director
- Respond to policy, communications, and media requests regarding the opioid overdose epidemic
- Cross-agency collaborations to improve timeliness and data quality of morbidity and mortality data indicators, including improvements on death certificate data.

08/2013-02/2016 **Health Scientist, HIV Testing Monitoring and Evaluation Team, Program Evaluation Branch, Division of HIV/AIDS Prevention (DHAP), Centers for Disease Control and Prevention, Atlanta, GA**

- Senior evaluator on the HIV testing monitoring and evaluation team. Responsible for monitoring and evaluating CDC-funded HIV testing and linkage data.

- Provide technical assistance to health department grantees regarding HIV testing and linkage data and overall data requirements that are submitted for CDC-funded HIV testing events. Lead for the data quality assurance process and grantee feedback for the Western region (14/61 health department jurisdictions). Work closely with the team lead in the Prevention Program Branch to provide guidance and additional follow-up as needed to grantees.
- Lead in the program evaluation branch for HIV testing and linkage indicators, specifically regarding updates and revisions to the definitions and calculations of key indicators for monitoring and evaluation. Cross-branch meetings were held between the program and prevention program branches as well as with DHAP leadership.
- Cross-agency collaboration to streamline data requirements and to reduce data collection burden for grantees. Co-lead on branch-level activity to revise the CDC HIV data collection testing form.
- Lead on a proposal for a special project to examine data quality and missing data issues.
- Cross-team collaboration and co-lead from the HIV testing team on the HIV testing indicators to be included in a central indicator database for DHAP leadership usability.
- Documentation and data management workgroup.
- HIV prevention services workgroup.
- Disseminate findings through reports, written manuscripts for publications, oral and poster presentations.

04/2013-present **Adjunct Assistant Professor, Behavioral Sciences and Health Education, Rollins School of Public Health, Emory University, Atlanta, GA**

- Mentor MPH students and postdoctoral fellows.
- Collaborator on research projects with adolescents, men, and women, specifically with African American and other disproportionately affected populations. Focus on HIV/STIs, sexual risk behavior, health disparities, and violence.
- Consultant and collaborator for the Women’s Interagency HIV Study, center grant awarded to Emory University.
- Develop data collection instruments, conduct quantitative and qualitative statistical analyses, and synthesize/interpret results.
- Disseminate research findings through written manuscripts for publications, oral and poster presentations.

04/2015-10/2015 **Acting Special Assistant to the Associate Director for Science (Detail), Office of the Director, Division of Violence Prevention, Centers for Disease Control and Prevention, Atlanta, GA**

- Member of the National Center for Injury Prevention Control’s Steering Committee for the development of the research priorities. Participated in a workgroup and contributed to the development of the Division of Violence Prevention’s research priorities for the next 3-5 years.
- Provided Division-level review and approval for IRB protocols and IRB-related forms.
- Compiled and summarized violence-related MMWRs from 2000-2015 to identify research gaps.
- Assisted in providing consultation and scientific guidance to staff on aspects of research methodology, project design, and implementation.

- Coordinated and planned scientific training opportunities for Division staff on health equity and for NCIPC on GIS.
- Assisted in the planning of Grand Rounds on Suicide.
- Worked with staff to summarize and create a document of the Division's 6-month scientific accomplishments for the Board of Scientific Counselors.
- Reviewed and clear scientific manuscripts and other documents to ensure that they were scientifically sound and consistent with CDC and HHS policy.

08/2010-08/2013 **Behavioral Scientist, HIV Testing and Counseling, Linkages, and Prevention in the Continuum of Care Team, HIV Prevention Branch, Division of Global HIV/AIDS, Centers for Disease Control and Prevention, Atlanta, GA**

- Provided research, programmatic and technical support to international research projects and programs, specifically with vulnerable and diverse populations.
- Utilized behavioral and social science theories, methods, and techniques to develop, implement, and evaluate programs as well as analyze and interpret data.
- Provided technical assistance on the implementation and evaluation of Prevention with Positives (PwP) in Kenya and Tanzania. Kenya lead for the PwP evaluation study. Responsible for presenting data from the PwP study at international conferences, inter-agency meetings with CDC, USAID, ICAP, and Ministries of Health.
- Project lead and principal investigator on the development and piloting of HIV prevention tools for primary care settings in collaboration with WHO. Developed scientific protocol for pilot, data collection, and program evaluation to be conducted in South Africa.
- Point of contact for all alcohol-related projects and programmatic activities in the HIV prevention branch of the Division of Global HIV/AIDS. Managed CDC budget for the PEPFAR alcohol initiative.
- Principal investigator for an evaluation of an alcohol risk reduction intervention for HIV-negative men in Namibia. Conducted data quality assurance visits, managed 4 staff members in Namibia as well as a statistician and data manager at CDC Atlanta, and managed budget.
- Provided technical assistance and recommendations for the alcohol initiative in Namibia. Provided regular support regarding the development of the national alcohol strategy. Held meetings with the CDC Namibia office, including the CDC Country Director and the Ministry of Health.
- Contracting officer's representative for the development of Brief Motivational Intervention materials for alcohol risk reduction. Managed and monitored the contract (\$54,800), performed quality assurance regarding the deliverables, provided technical direction regarding the materials, managed invoices, and performed modifications as needed.
- Point of contact for activities on pediatric HIV testing and counseling in the HIV prevention branch of the Division of Global HIV/AIDS.
- Provided technical assistance and recommendations to CDC, USAID, and DoD staff as well as implementing partners regarding couples and pediatric HIV testing counseling (HTC) in Nigeria. CDC Atlanta lead for the piloting of couples and pediatric HTC materials in Nigeria.
- Developed protocol to evaluate pediatric HTC materials in order to increase pediatric HTC and to improve monitoring and evaluation of pediatric HTC and linkages into care and treatment in Nigeria. Interagency activity involving CDC, USAID, and DoD in Nigeria.

- Conducted protocol reviews, objective review panels, COP reviews, and assistance with other activities as needed at the branch and Division levels.
- Technical assistance visits to countries involving site visits, monitoring of programmatic and/or evaluation activities, review of policy documents, meetings with USG staff from CDC, USAID, and/or DoD, as well as implementing partners and Ministry of Health.
- Prepared briefs and reports from technical assistance visits with recommendations to CDC leadership and external partner organizations.
- Disseminated research findings through written manuscripts for publications, oral and poster presentations.

08/2009-07/2010 **Association for Prevention Teaching and Research (APTR) Postdoctoral Research Fellow; Behavioral Interventions Research Branch and Epidemiology Surveillance Branch, Division of STD Prevention, Centers for Disease Control and Prevention, Atlanta, GA**

- Conducted quantitative research (SPSS) in behavioral sciences, health services research, and STD prevention, specifically focusing on social determinants of health and vulnerable populations.
- Developed data collection instruments, conducted quantitative analyses, and synthesized results into papers and presentations.
- Disseminated findings from various projects through various methods, such as presentations at national and international conferences and publications.
- Collaborated with other branch staff in the Division of STD Prevention to ensure linkages between behavioral and social science research and other program processes.
- Attended seminars and trainings in public health practice, qualitative and quantitative research, and program evaluation.

08/2007-07/2009 **NIH Postdoctoral Fellow; HIV/AIDS Clinical Research Training Program, Department of Psychiatry and Behavioral Sciences, Emory University School of Medicine, NIMH (5T32 MH020018), Atlanta, GA**

- Utilized behavioral theories and methods to develop, implement, and evaluate HIV/STD prevention intervention for minority populations, specifically young adult African-American women.
- Conducted formative/qualitative research during the pilot of an HIV/STI prevention intervention for young adult heterosexual African-American men. Analyzed qualitative data and developed a report outlining the findings, which was presented to the principal investigator.
- Principal investigator and developed a scientific protocol to adapt an HIV prevention program for university students in India. Conducted formative/qualitative research and presented findings at an international conference and developed a report outlining the findings.
- Served as a co-project and assessment coordinator for a CDC-funded grant (1R18PS001157-01) for \$1,349,997 entitled, "Elimination of Health Disparities through Translation Research."
- Assisted with grant and scientific protocol writing for NIH submissions.
- Developed data collection instruments, conducted quantitative and qualitative analyses, and synthesized/interpreted results into presentations, reports and publications.
- Led and co-authored manuscripts and presented at national and international conferences.

- Provided individual and group therapy for patients who were HIV- positive and had a wide diverse range of mental health issues.

2008-2009 **Visiting Postdoctoral Fellow, Global AIDS Program, Centers for Disease Control and Prevention, Atlanta, GA**

- Conducted program evaluation for a project on alcohol and HIV intervention prevention and a project on preventing mother to child transmission of HIV among individuals in South Africa.
- Developed and adapted an alcohol and HIV prevention program in Namibia.

2006-2007 **Post-Intern Supervisor, University of Georgia Psychology Clinic, Athens, GA**

- Served as a clinical supervisor for graduate students who saw patients with a diverse range of mental health issues and co-lead group practicum meetings.
- Provided individual therapy to patients in an outpatient community clinic with an adult clientele that supervisees also could observe.

2005-2006 **Psychology Intern, University of Maryland, School of Medicine; Veteran Affairs Maryland Healthcare System, Baltimore, MD**

- Major rotations: 1) Medical psychology (infectious disease program and transplant evaluations), 2) Dual Diagnosis/Substance Abuse Residential Rehabilitation Treatment Program, and 3) Chronic Pain/Primary Care
- Minor rotations: 1) Women’s mental health clinic, 2) Acceptance and commitment therapy consultation group, 3) Psychological assessment tutorial, and 4) Research

SELECTED HONORS AND AWARDS

- 2016 Top 24 paper in Division of HIV/AIDS Prevention (DHAP) for Charles Shepard Science Award at CDC
- 2015 March Director's Recognition Award from the National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention at CDC
- 2015 Top 20 paper in DHAP for Charles Shepard Science Award at CDC
- 2014 Finalist, Behavioral and Social Sciences Working Group's Research Award at CDC
- 2011 Presentation from National HIV Prevention Conference selected for press release by CDC
- 2010 Presentation from National STD Prevention Conference selected for press release by CDC
- 2009 Presentation selected for distinction based on merit at the IAS Conference
- 2008 Honorable Mention in Best Abstracts of 2008 for the HIV/AIDS section of APHA
- 2006-2007 Recipient of the Dissertation Completion Award from University of Georgia (UGA)
- 2002-2007 Research Travel Award, Department of Psychology, UGA
- 2002-2004 Graduate Recruitment Opportunity Fellowship from UGA
- 2001 Academic Achievement/Minority Student Leadership Award at University of North Carolina at Wilmington (UNCW)
- 2001 Summer Research Award for Master's Thesis Proposal at UNCW
